Shimon Ben-Zvi
High School

► צוות מרכז המעבדות בראשות פרופ' מיכל ציון
יזם למידה שיתופית בין לאומית של מורים
ותלמידים מישראל ויוון בשנה"ל תשפ"ב-
תשפ"ג (2022-2023). בכל שנה התקיימו
מפגשים מקוונים שבהם התלמידים התחלקו
לחדרים, דנו בנושא משותף אותו חקרו מראש,
והציעו הצעות מעשיות לפעילות.

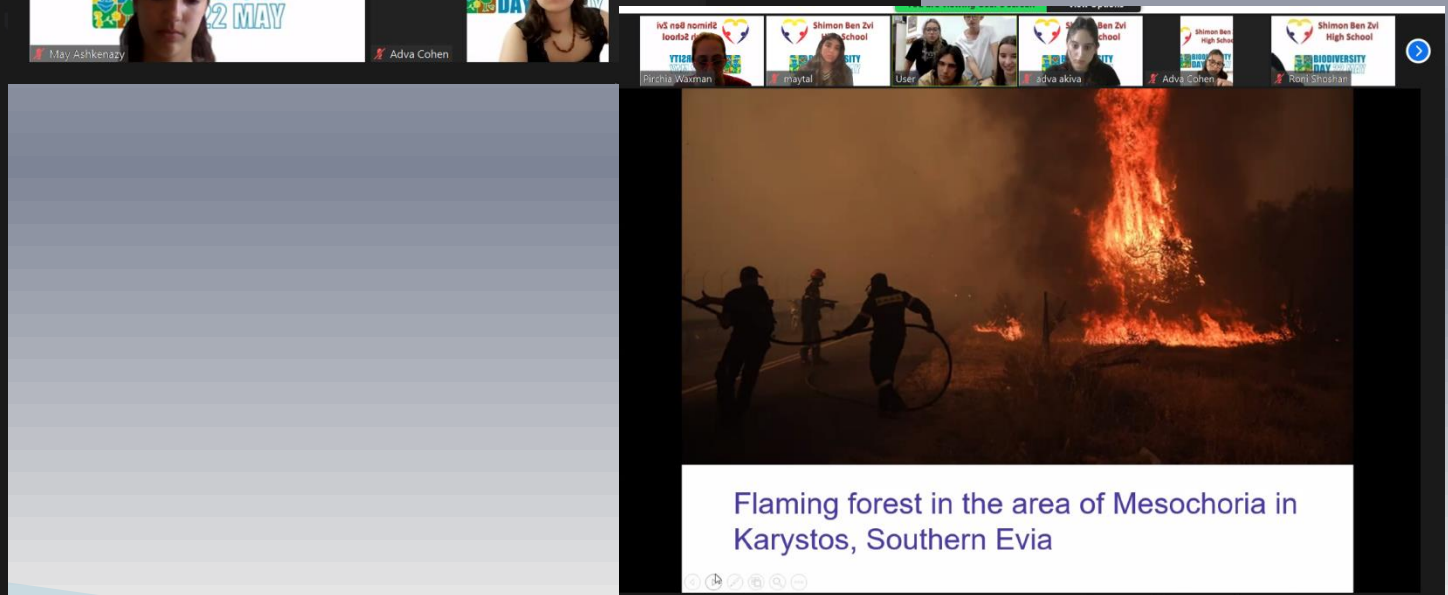

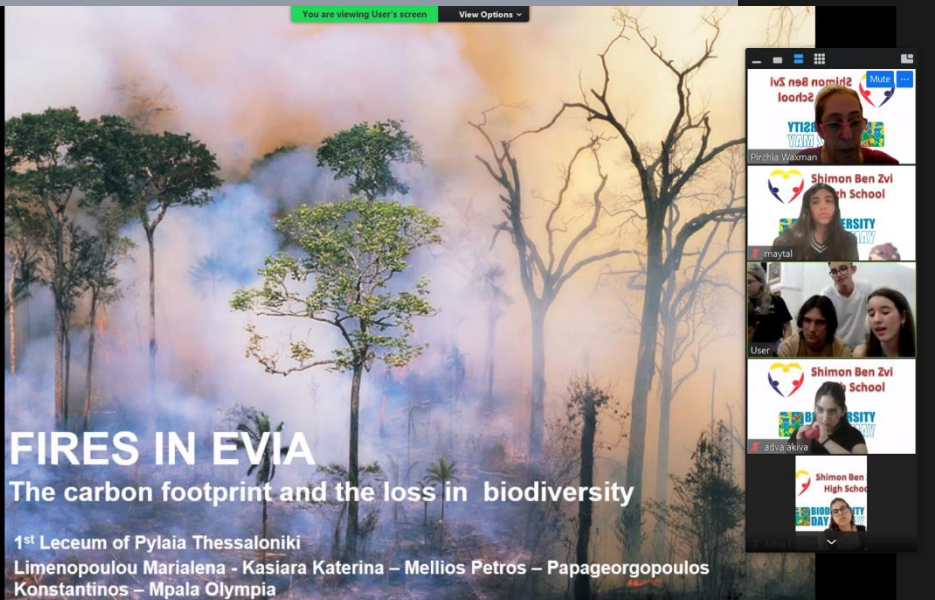

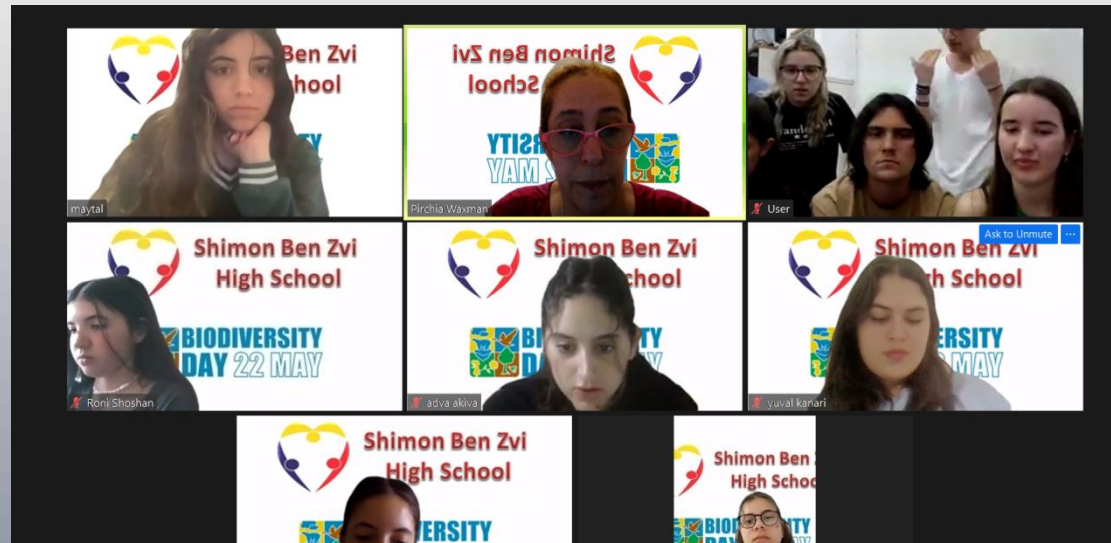

פתיחה במליאה

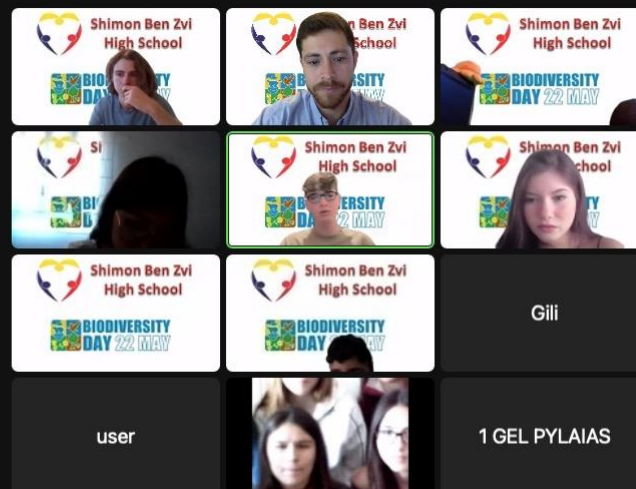

חדר שעסק בנושא שריפת יערות

there are several companies holding oil rigs and refineries in Israel. Exploration and transportation of oil in Israel's territorial water can be dangerous and extremely harmful to the biodiversity. In 2014 5 million liters of oil leaked from the Eilat-Ashkelon pipeline, and last year Israel suffered its worst oil disaster in history, it was called "tar in the storm". In this event, a ship from the Persian Gulf spilled hundreds of tons of oil in Israel's water. Large amounts of tar washed along 160km of Israel's Mediterranean coastline. Two weeks later a dead whale washed out on shore, it died of oil poisoning, and other beaches in Israel had damage and death caused to birds, fish, turtles, crabs and other sea life including plants. Studies found that after oil exposure, adult fish may experience reduced growth, enlarged livers, changes in heart and respiration rates, and reproduction impairment.

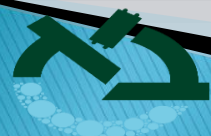

The dead whale body found on the Nitzanim beach

חדר בנושא זיהום ים

Our school organized a cleanup campaign on Chanioti beach, Chalkidiki

חדר בנושא זיהום ים

The incident

At the second of February 2021, hundreds tons of tar were dumped 200 miles from Israel's shore

At the seventeenth of february tar got to the beach line, and with it many injured or dead animales

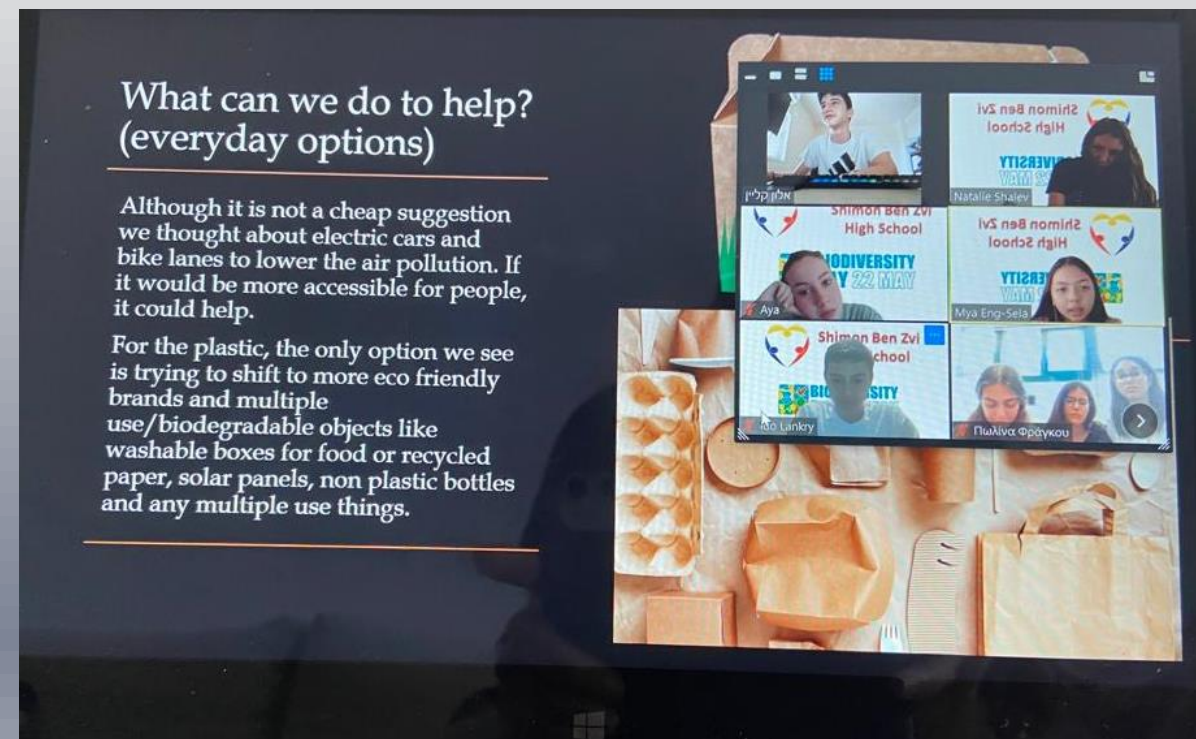

Only in this march (2022) the last beach was cleaned due to the huge quantity of tar

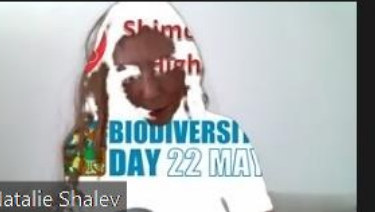

Explanation

Marine pollution in Israel is a serious and common ecological problem in water resources in Israel.

Marine pollution affects drinking water, due to the fact that the desalination facilities in Israel on the shores of the Mediterranean, ecological diversity, tourism, recreation and the livelihoods of fishermen are affected. Marine pollution in Israel sometimes also refers to pollution of the beach itself, and not just the seawater.
